SECTION 14: RETENTION PAYABLE

The Purchasing Supervisor or designee should verify that their contract status is changed to Retainage Pending, as appropriate. The Contracting Division's staff shall initiate the retention payment as appropriate by completing a Request for Payment Form as found in the A/P policy (see Exhibit G).

SECTION 15: CONTRACT DELIVERABLES

Some District contracts have deliverables in the form of planning, engineering and scientific reports. These contracts require contractors to produce an initial draft report to be followed by a final report. The Purchasing Division has assigned Engineering and/or Operation managers who are responsible for various tasks in the review and approval process of draft reports.

To ensure that the District gets deliverables of the highest caliber and that each step of the draft report review and approval process is properly handled, the following steps shall be taken in the successful review and approval of draft reports:

| APPROVAL DATE | FINANCE POLICIES | POLICY NO. |
|------------------------------------|---|-------------------|
| APPROVED BY: Board of Directors | POLICY TITLE CONTRACT MANAGEMENT POLICY | EFFECTIVE DATE |
| | | |

- a. The Contracting Division Manager or designee shall transmit copies of any reviewer comments and prepare a transmission letter to the contractor. It is important that the Contracting Division Manager or designee review the comments for appropriateness before including them in the attachment. A reminder to the contractor to mail the Final Report to the Contracting Division Manager or designee will be included in the letter.
- b. The letter transmitting review comments and suggested revisions to the final report will be routed through the Purchasing Supervisor or designee, Department Head, and the GM, if applicable. Copies of each reviewer's actual comments will be attached to the letter as it is being routed for approval and signature. Only the edited comments will be mailed with the review letter and not each individual reviewer's comments (if applicable or in the best interest of the District).
- c. Copies of all draft report related memos and letters are to be given to the Purchasing Supervisor or designee and copies should be filed in the Purchasing Division's contract working files. Purchasing Division staff will place the routing file in a "Final Reports Pending" queue until the Final Report is received
- d. If the Final Report is satisfactory, the Purchasing Supervisor or designee will notify Purchasing Division staff by email. A letter will be prepared for signature by the Department Head and/or GM, if applicable to notify the contractor that the Final Report is acceptable and in conformance with the terms of the contract. The letter will also note that the contractor may request payment of retainage that may have been held on the contract.
- e. An electronic version of the report shall be supplied by the contractor to

the District. Any CDs or other media containing scientific data apart from the Final Report that are submitted to the District by the Contractor will be maintained in binders and made available to District staff as needed.

f. The Purchasing Supervisor or designee shall verify that the contract status is changed to Retainage Pending, as appropriate.

SECTION 16: CONTRACT CLOSE-OUT

The District Purchasing Division shall retain records of each contract entered into and all solicitation documents related to the contract through the seventh anniversary of the date:

- The contracts are completed or expires; or
- All issues that arise from any litigation claim, negotiation, audit, open records request, administrative review, or other action involving the contract or documents are resolved.

Procedure

- Purchasing Division staff will obtain from the assigned Contracting Division Manager or designee a written confirmation that the contract is complete and that all deliverables and payment requirements have been satisfactorily completed.
- 2. All physical file documentation for the contract will be collected for archives and storage and the contract status in the Contract tracking software (if applicable) will be updated to 'complete' status.

- 3. Contract documentation will be retained in accordance with the District's Records Retention Schedule.
- 4. All contracts need to comply with the purchasing policy authorization table in order to be a valid contract.

^{*} The Hourly Rate includes both fixed and variable costs. Variable costs change relative to the level of activity, (for example electric costs). Fixed costs do not change relative to the level of activity, (for example monthly rent). The O.T. Factor reflects only the variable cost portion of the hourly rate. In order to avoid duplication of charges for the fixed cost portion, the O.T. Factor is multiplied by the Hourly Rate to calculate the O.T. Rate.

BOARD OF DIRECTORS FINANCE COMMITTEE STAFF REPORT

DATE: June 9, 2021

TO: Finance Committee

FROM: Shamindra Manbahal, Interim General Manager

SUBJECT: CONSIDER THE BULK PURCHASE OF METERS, METER BOXES,

LIDS, & BALL VALVES TO SUPPORT DEVELOPMENT PROJECTS IN

PROGRESS

BACKGROUND:

The West Valley Water District's, ("District"), Purchasing Department maintains an inventory of various parts and supplies as needed to support the ongoing maintenance and development activities. Inventory items are generally ordered in the lowest quantity that will support ongoing activities, but also keep the amount of inventory space required to a minimum. This practice generally results in inventory purchase orders that fall under the Purchasing Policy limit of \$25,000 for the General Manger.

DISCUSSION:

Among the inventory items maintained are meters, meter boxes, meter box lids, and ball valves. These are informally referred to as "New development meter installation kits". Due to semiconductor chip shortages, materials shortages, and other COVID-19 related issues, recent orders for these items have taken longer than usual to fill, (in some cases, items are on back order), and prices are increasing.

In order to ensure that there is no disruption in the District's ability to meet the demands of the development projects in progress, staff is proposing a larger than usual order of the items that make up the "New development meter installation kits".

New Development 1" Meter Install Kit

| Qty | Item | Vendor | Price EA | Subtotal | Tax | Total |
|-----|---------------|-------------|-----------|---------------|-------------|---------------|
| 300 | Meter Box | Old Castle | \$ 57.65 | \$ 17,295.00 | \$ 1,340.36 | \$ 18,635.36 |
| 300 | Meter Box Lid | Old Castle | \$ 35.25 | \$ 10,575.00 | \$ 819.56 | \$ 11,394.56 |
| 300 | 1" Meter | Aqua Metric | \$ 156.98 | \$ 47,094.00 | \$ 3,649.79 | \$ 50,743.79 |
| 300 | 1" Ball Valve | Yo Fire | \$ 101.00 | \$ 30,300.00 | \$ 2,348.25 | \$ 32,648.25 |
| | | | | \$ 105,264.00 | \$ 8,157.96 | \$ 113,421.96 |

FISCAL IMPACT:

Inventory items do not directly impact the District's Operating Budget at the time of purchase. They are recorded on the balance sheet and expensed as they are issued out for use. The FY 2022 Operating Budget includes funding for the installation of new meters for development.

STAFF RECOMMENDATION:

Staff recommends that this item be submitted for consideration, and that the Board of Directors approve this item and authorize the Interim General Manager to execute the necessary documents.

Respectfully Submitted,

Shamindra Manbahal
