These core principles help ensure that the District maintains a path that aligns with the customers and the community it serves in the most effective and efficient manner.

“Our new Strategic Plan asserts the vision, mission, and core values of the District and establishes a set of strategic goals to help us achieve them,” said WVWD Board President, Greg Young. “The plan will provide the district's overall direction, and it also provides a means for the Board and the community to measure progress as the District continues to work on behalf of our customers.”
