## Celebrate Water Quality Month!

Water is essential to all life on the planet, but often it's taken for granted. To encourage our customers and communities to do their part to help protect our water sources, West Valley Water District (WVWD) is dedicating the month of August to celebrating water quality.

National Water Quality Month was founded by the Environmental Protection Agency (EPA) in 2005 to bring awareness to the vitally important task of conserving our water to ensure that future generations have access to clean and safe drinking water.

Throughout the month of August, we'll be sharing helpful tips on how you can do your part to protect our water through our social media platforms. Follow us on Facebook, Instagram, Twitter, LinkedIn and Nextdoor to learn more and find out what's happening at WVWD.

### Quick tips to prevent pollution of water ways and protect our local water:

Clean up  
after pets

Properly dispose of  
household chemicals

Install a  
rain barrel

Limit the use of fertilizers  
and pesticides

West Valley Water District is proud to provide you with safe, high-quality water every time you turn on the faucet. To learn more about your water visit [www.wvwd.org/2022waterquality](http://www.wvwd.org/2022waterquality) to view our 2022 Water Quality Report. This report highlights where your water comes from, how it's treated and how it stands up against federal and state standards.

# WVWD Invites Students to Participate in its Annual Poster Contest!

West Valley Water District (WVWD) invites eligible first through sixth grade students to participate in this year's poster contest.

The theme of this year's contest is "Water Savings Starts with You". Winning student entries will be recognized at a Board of Directors meeting and used for the 2024 West Valley Water District Calendar. If your child is interested in participating or if you are a school administrator and would like to sign up your school, email [social@wvwd.org](mailto:social@wvwd.org) or call the Public Affairs Department at 909-875-1804.

- High-efficiency Nozzles - \$4 per nozzle

To learn more about our rebates or to apply, visit [www.wvwd.org/conservation](http://www.wvwd.org/conservation)

### Conservation Kit

Take home your free conservation kit today by visiting our customer service lobby, during normal business hours. Kits include home water saving devices such as water efficient hose nozzles, showerheads and more! (While supplies last).

## WVWD Staff meet with Congresswoman Torres to Discuss Water Priorities for the Region

West Valley Water District staff met with Congresswoman Norma Torres, her staff and other local water agencies to discuss challenges and effective solutions to the region's most crucial water issues. Topics centered around water reliability for the future, infrastructure and workforce development.

*Thank you Congresswoman!*
