West Valley Water District Selects New AGM

The West Valley Water District (WVWD) Board of Directors announced that Linda Jadeski, longtime WVWD employee and Director of Engineering, has been promoted to Assistant General Manager (AGM).

Linda has been serving the communities of West Valley Water District since 2013, diligently working her way up the ranks at the District from Water Resource Analyst to Director of Engineering, and now AGM.

In her new position as AGM, Linda will utilize her education, experience and extensive knowledge of WVWD's water system to

ensure water reliability for our customers, both now and in the future.

As AGM, Linda's duties will include working closely with WVWD's District Manager to plan, direct, and coordinate the daily operation of the organization. Additionally, she will spearhead efforts to maintain the District's water production and transmission program, ensuring ample water supply for the future.

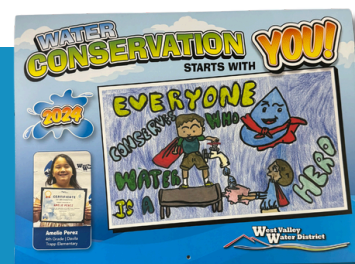

Please join the WVWD team in saying Congratulations to Linda!

Congratulations

Upcoming Holiday Office Closures

December 25 - January 2

In observance of upcoming holidays, West Valley Water District offices will be closed on the above dates. During these closures, payments can still be made online, over the phone through our automated payment system, by mail or through any open satellite locations.

For any water-related emergencies, please call 909-875-1804.

Director Hawkins Presents at Inaugural Apprenticeship Connection Summit

West Valley Water District (WVWD) Board Director Channing Hawkins recently joined the Mount San Jacinto College (MSJC) Career Education Department for their inaugural Apprenticeship Connection Summit that brought together local leaders and focused discussion on trade programs and the future of workforce in the Inland Empire.

Speaking on the obstacles that the water industry faces, including an aging workforce and lack of diversity in the trade sector, Director Hawkins advocated for local electeds and other community leaders to support work-based learning through policy changes.

Director Hawkins, in partnership with surrounding water agencies founded IEWorks, a regional program dedicated to strengthening the water/wastewater workforce in the Inland Empire by creating equitable pathways to water/wastewater careers and aspires to train and employ future water professionals.

Director Hawkins was joined onstage by Stephanie Adams, the Deputy Director of the Riverside County Workforce Development Board; Tiffany Baker, the Founder of the Empowerment Center; and Natalie Weaver, Director of Partnerships and Programs for LAUNCH Apprenticeship Network in the inaugural Apprenticeship Connection Summit.
