STAFF REPORT

DATE: September 3, 2026
TO: Board of Directors
FROM: Jose Velasquez, Chief Financial Officer
SUBJECT: Revenue and Expenditures Report - July 2026

STRATEGIC GOAL:

Strategic Goal 6 – Demonstrate Effective Financial Stewardship; Objective 6D - Maintain a Data Driven Approach and Financial-Based Decision-Making

MEETING HISTORY:

August 10, 2026 - Finance Committee

BACKGROUND:

The Board of Directors requested the Monthly Financial Status Reports to be presented to the Finance Committee for review and discussion before presenting them to the Board of Directors. The reports are being produced by the District's Financial System (System of Records) and will be presented on a monthly basis.

DISCUSSION:

The Monthly Financial Status Report (**Exhibit A**) summarizes the District's revenue categories as well as expenditures for all Departments. The original total budget includes the adopted budget. The current total budget includes the adopted budget plus any budget amendments or adjustments made during the year. Period activity column represents activity for the reporting periods. The fiscal activity column represents the year-to-date activity or transactions that have been recorded in the general ledger from the beginning of the fiscal year July 1 through June 30th. The encumbrance column represents funds encumbered with a purchase order that's not spent but committed. The percentage column represents the percentage of the current budget that has been received (Revenue) or utilized (Expenditure).

In summary, for the first month of the fiscal year through July 2026, the District has total earned revenues of \$3,411,793 and incurred total expenses of \$2,574,887. This results in an operating surplus of \$836,906. The surplus is being used to support the Capital Improvement Program. Contributing to the positive results are water sales and other operating income.

FISCAL IMPACT:

There is no fiscal impact for producing the July 2026 Monthly Revenue & Expenditure Report.

REQUESTED ACTION:

Approve the July 2026 Monthly Revenue and Expenditures Report.

Strategic Goal 8 – Deliver Superior Customer Service; Objective 8A - Define, Measure, and Improve Internal and External Customer Service

MEETING HISTORY:

August 10, 2026 - Finance Committee

BACKGROUND:

The Customer Service Department plays a vital role in supporting the District's financial operations through customer billing, payment processing, account management, and customer engagement. The department also serves as the primary point of contact with customers, making its performance an important indicator of the District's operational effectiveness and customer satisfaction.

To enhance transparency and provide the Finance Committee with meaningful operational performance metrics, staff is introducing a Quarterly Customer Service Performance Report. Going forward, this report will be presented quarterly to provide updates on key performance indicators, customer service trends, payment activity, digital customer engagement, and operational initiatives. The report will assist the Finance Committee in monitoring department performance while supporting data-driven decision-making and continuous improvement.

DISCUSSION:

The Fourth Quarter Customer Service Performance Report (**Exhibit A**) summarizes departmental performance for the period of April through June 2026 and highlights key operational accomplishments.

During the quarter, Customer Service successfully answered 5,501 customer calls while maintaining a call answer rate exceeding 90 percent each month. This demonstrates the department's continued commitment to providing responsive and efficient customer service despite increased call volumes.

Customer engagement through digital services continued to improve during the quarter. Total customer accounts increased to 28,965, while enrollment in the District's IPaySmart online payment portal increased to 11,969 customers, representing approximately 41 percent of all customers. AutoPay participation also continued to increase, reflecting customers' growing preference for convenient electronic payment options.

Payment activity remained strong, with Customer Service processing 63,542 payments totaling approximately \$11.0 million during the quarter. IPaySmart continued to be the District's primary payment platform, accounting for approximately 66 percent of all payment transactions. Continued customer adoption of digital payment services supports operational efficiencies while enhancing customer convenience.

Customer Service also maintained consistent account management activities during the reporting period, including:

- 387 new customer account sign-ups;
- 217 service disconnections;
- 180 service reinstatements; and
- 81 payment extensions provided to customers experiencing temporary financial hardship.

These metrics demonstrate the department's continued commitment to balancing efficient account administration with quality customer service and customer assistance.

Looking ahead, the department will continue to expand digital customer services by implementing Text-to-Pay and an online customer application for new water service, providing customers with additional convenient, secure, and accessible service options.

Overall, the report demonstrates the Customer Service Department's continued success in maintaining high service levels, increasing digital customer engagement, supporting efficient revenue collection, and advancing operational improvements that align with the District's strategic objectives. Since its implementation in July 2025, IPaySmart has demonstrated strong customer adoption and continues to support operational efficiencies, including an annual saving of more than **\$700,000** resulting from the transition implemented at the beginning of the Fiscal Year of 2025-2026.
